These changes were made under the provisions of 10 CFR 50.54(a)(3) in that the changes do not reduce the commitments in the Quality Assurance program description previously accepted by the NRC. In accordance with 10 CFR 50.54(a), this revision will be submitted with the next annual submittal of the Topical Quality Assurance Report. Technical Specifications changes to reflect the title change will be submitted by FPL.

In addition to this notification, FPL requests the NRC review and modify the official service lists for St. Lucie and Turkey Point plants, including electronic distributions, to reflect the above changes. Primarily, Mr. J. A. Stall replaces Mr. T. F. Plunkett as the official recipient of NRC correspondence directed to FPL's Nuclear Division.

Please contact Mark Dryden at (561) 694-4430 if there are any questions.

Very truly yours,

J. A. Stall
