Dear Mr. Stall:

This letter confirms the telephone conversation between Mr. Ed Weinkam of your staff and myself on June 4, 2001, concerning an Annual Assessment Meeting requested by us which is scheduled for July 10, 2001, at 10:00 a.m. (EDT). The purpose of the meeting is to discuss the NRC Reactor Oversight Process Annual Assessment of your St. Lucie facility. During the meeting, we recognize you may have information you want to present to us or any members of the public in attendance. Accordingly, if you so desire, after our presentation you will be afforded an opportunity to respond to any information contained in the Annual Assessment Letter and to discuss any new or existing programs that are designed to maintain or improve your current performance. The location of the meeting will be in Room 123 of the Nuclear Training Center at the St. Lucie Nuclear Plant on Hutchinson Island in Florida. State and local government officials have been invited to the Annual Assessment Meeting.

A separate meeting will be held with these officials in Room 227 of the same location shortly after the conclusion of the Annual Assessment Meeting. The purpose of this meeting is to discuss the regulatory role of the NRC, the role of the St. Lucie resident inspectors and the avenues that are available to bring concerns to the NRC. Both these meetings are open meetings per "Staff Meetings Open to the Public; Final Policy Statement" (September 20, 2000; 59 FR 48340).

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Should you have any questions concerning this meeting, please contact me at 404-562-4540 or Son Ninh at 404-562-4532.

Sincerely,

/RA/
