Mr. Mike Lesar, Acting Chief
U.S. NRC, Rules & Directives Branch
Division of Administration Services
Office of Administration
Mail Stop T6D59
Washington, DC 20555

Dear Mr. Lesar:

I'm writing in response to a recent article in **News at Norman** regarding the use of MOX fuel at our local Duke Power facility.

I'm not interested in having this contaminant infiltrating my environment and I'm not interested in having the "undesirables" seeking out this poison for use in weapons infiltrating my community!

Thanks,

Tina Duvall
