

June 13, 2001

Mr. Edward Fink
Limerick Township
646 West Ridge Pike
Limerick, PA 19468

SUBJECT: LIMERICK GENERATING STATION - ANNUAL ASSESSMENT OF SAFETY
PERFORMANCE

Dear Mr. Fink:

As we discussed earlier, I look forward to meeting you and the Limerick Township Supervisors at 1:00 p.m. on June 26, 2001, at the Limerick Township Building to discuss our Reactor Oversight Process at the Limerick Generating Station.

In addition you and other members of your organization are invited to attend a meeting between the Nuclear Regulatory Commission (NRC) and Exelon Generation Company at 6:00 p.m. on June 26, 2001, in the Limerick Energy Information Center, 298 Longview Road in Linfield, Pennsylvania. At this meeting we will discuss our annual assessment of the safety performance of the Limerick Generating Station. The meeting is open for public observation.

The NRC completed its annual assessment of the safety performance of the Limerick Generating Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. We described our assessment results in a letter to the Exelon Generation Company on May 30, 2001; a copy of that letter is attached.

Following the meeting, the NRC staff will be available to address questions or comments from you and members of the public pertaining to our annual assessment of Limerick or the implementation of the Reactor Oversight Process and planned inspections. You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Limerick Generating Station through the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT>

In the interim, please do not hesitate to contact me at 610-337-5209, if I can be of further assistance to you.

Sincerely,

/RA/

Mohamed Shanbaky, Chief
Projects Branch 4
Division of Reactor Projects
