Re: Catawba Nuclear Station
License Extension

Jenna
Dear Ms. Huff:

Thank you for your fax transmittal of May 30 regarding the proposed licensing of the Catawba Nuclear Station.

Since the relicensing only involves continued operation, and no new construction, ground disturbance, or modification the relicensing should not have an effect on National Register eligible or listed properties.

If you have questions, please don't hesitate to call me at 803/896-6169.

Sincerely,

Nancy Brock, Coordinator
Review and Compliance Programs
State Historic Preservation Office
