SUBJECT: SAXTON NUCLEAR EXPERIMENTAL CORPORATION  
FACILITY LICENSE TERMINATION PLAN REVIEW -  
RESPONSE TO LICENSEE'S MARCH 19, 2001, LETTER  
(TAC MA8076)

We have reviewed the licensee's responses, dated March 19, 2001, to our third request for additional information (RAI No. 3 dated January 17, 2001), on the license termination plan for the Saxton Nuclear Experimental Corporation facility. Further site specific technical information and clarification are required on some items especially related to the ongoing groundwater monitoring program. A site visit and discussions with the licensee's technical staff and consultants at the facility is necessary to obtain clarification and understanding of the site specific technical data and related information. It is requested that a site visit be arranged as soon as possible. We will document any RAI resolutions in our meeting report and then formally respond to any remaining open issues.

Should you have any questions regarding this request, please do not hesitate to contact me.
