SUBJECT: REQUALIFICATION PROGRAM INSPECTION

Dear Mr. Kingsley:

In a telephone conversation on June 20, 2001, Mr. Dan Burton, License Operator Requal Training Group Lead, and Mr. Michael Bielby, Lead Inspector, made arrangements for the NRC to inspect the licensed operator requalification program at the Braidwood Nuclear Power Station. The inspection is planned for the week of August 27, 2001, which coincides with your regularly scheduled requalification examinations in accordance with your NRC-approved requalification program.

In accordance with 10 CFR 55.59(c), the NRC may request facility licensees to submit their comprehensive requalification written examinations or annual operating tests as necessary to support the NRC's inspection program needs. In order for the NRC to adequately prepare for this inspection, please furnish the written examinations and available operating tests scheduled for the week of the inspection to the NRC by August 10, 2001. Mr. Burton has been advised of this request and provided with the name and address of the NRC lead inspector assigned to this inspection.
