NOTICE OF ISSUANCE OF AMENDMENT TO CONSTRUCTION PERMITS AND AVAILABILITY OF SUPPLEMENTAL INITIAL DECISION

Notice is hereby given that pursuant to a Supplemental Initial Decision dated March 28, 1977, by the Atomic Safety and Licensing Board, the Nuclear Regulatory Commission has issued Amendment No. 3 to Construction Permit No. CPPR-120 and Amendment No. 3 to Construction Permit No. CPPR-121 issued to Public Service Electric and Gas Company and Atlantic City Electric Company for construction of the Hope Creek Generating Station, Units 1 and 2, located in Salem County, New Jersey. The Board's Supplemental Initial Decision authorizes the deletion of conditions to the construction permits thereby permitting pouring of concrete for Category I structures and the commencement of construction of safety-related structures at Hope Creek to begin immediately. Construction of safety-related structures was prohibited by a condition of the Hope Creek construction permits until the river traffic hazards issue had been resolved. Resolution of this issue was the subject of the recently conducted public hearing. Construction activities at Hope Creek were limited to excavation and construction of facilities that were not necessary for plant safety.
