Ms. Nancy Burton  
147 Cross Highway  
Redding Ridge, CT 06876

Dear Ms. Burton,

This is in response to your recent request to Roy Zimmerman, of the Nuclear Regulatory Commission, for copies of relatively recent rulemakings which deleted or modified multiple reporting requirements. I was asked to respond to your request. I and others have begun to search through our listings of final rulemakings to identify relevant Commission actions.

Please find enclosed our first group of relevant material. These are: the final rule on Minor Modifications to Nuclear Power Reactor Event Reporting Requirements, published in the Federal Register on September 10, 1992; the final rule on Decommissioning of Nuclear Power Reactors, published on July 29, 1996; and the final rule on Reporting Requirements for Nuclear Power Reactors and Independent Spent Fuel Storage Installations at Power Reactor Sites, published on October 25, 2000, and the corresponding guidance document, "Event Reporting Guidelines 10 CFR 50.72 and 50.73," NUREG-1022, Rev. 2, October 2000. The final rule on decommissioning of nuclear power reactors contains revisions to the reporting requirements of 10 CFR 50.36a(a)(2) relative to liquified and gaseous effluents from nuclear power reactor facilities.

We are still working to identify other final rulemakings issued during the last 10 years which may be of interest to you. We hope to complete our search and forward copies of them to you within the next several weeks. Should you have any questions, please feel free to call me at (301) 415-1978, or e-mail me at [bjr@nrc.gov](mailto:bjr@nrc.gov).

Thank you for your interest in the work of the Nuclear Regulatory Commission.

Sincerely,

***/RA/ signed by M. Malloy for***
