NRC TO MEET WITH NUCLEAR MANAGEMENT COMPANY TO DISCUSS SAFETY PERFORMANCE AT THE PALISADES NUCLEAR POWER PLANT

The Nuclear Regulatory Commission will meet with Nuclear Management Company officials June 8 to discuss the NRC's annual assessment of safety performance at its Palisades Nuclear Power Plant in Covert, Michigan.

The meeting will begin at 10 a.m. EDT and will be held at the Palisades Training Center, 27780 Blue Star Memorial Highway. The public is invited to observe the meeting. NRC officials will be available after the meeting to answer questions.

The annual assessment, referred to as the End-of-Cycle assessment, evaluates safety performance at Palisades from April 2000 through March 2001, and informs plant officials of the NRC's plans for future inspections at the facility.

The Palisades assessment letter and inspection plan are available at <http://www.nrc.gov/OPA/ppr> or from the Region III Public Affairs Office. Current performance information for the plant is available at <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/indes.html>.
