

JUL 13 1988

Docket No. 50-423

Mr. Edward J. Mroczka
Senior Vice President
Nuclear Engineering and Operations
Northeast Nuclear Energy Company
P.O. Box 270
Hartford, Connecticut 06141-0270

Dear Mr. Mroczka:

SUBJECT: PRESERVICE INSPECTION -RELIEF FROM CODE REQUIREMENTS MILLSTONE UNIT 3
(TAC NO. 65324)

Your letter dated December 23, 1985 requested relief from certain ASME Code Requirements for the Preservice Inspection of Millstone Unit No. 3. The requested relief from ASME Code requirements was granted with issuance of Supplement 5 to the Millstone Unit 3 Safety Evaluation (NUREG-1031, Supplement No. 5) dated January 1986. Subsequently, by letter dated, April 1, 1986, you submitted supplemental information concerning the subject ASME Code relief.

We have completed our review of your April 1, 1986 submittal and conclude that the information that was submitted was of a clarifying nature and that it does not effect our granting of ASME Code relief in NUREG-1031, Supplement No. 5. No additional relief from ASME Code requirements is necessary based upon your April 1, 1986 submittal.

Sincerely,

"ORIGINAL SIGNED BY"

David H. Jaffe, Project Manager
Project Directorate I-4
Division of Reactor Projects I/II
