In accordance with the reporting requirements of NRC Generic Letter (GL) 89-10 (Reference 1), Indiana Michigan Power Company (I&M) notified the NRC that it had completed implementation of its motor-operated valve (MOV) testing program for Donald C. Cook Nuclear Plant (CNP) Units 1 and 2. In accordance with the reporting requirements of GL 96-05 (Reference 2), I&M provided a summary description of its MOV periodic verification program

established for CNP Units 1 and 2. These notifications were documented in the December 15, 2000, I&M letter to the NRC (Reference 3).

This letter is being provided to document the I&M commitment to all three phases of the Joint Owners Group (JOG) Program in addition to the actions committed to in the December 15, 2000, letter to the NRC (Reference 3). This commitment meets the request by NRC for a specific commitment to implement all three phases of the JOG program described in the NRC Inspection Report dated June 12, 2001 (Reference 4).

Attachment 1 delineates commitments made in this letter.

Should you have any questions, please contact Mr. Ronald W. Gaston, Manager of Regulatory Affairs, at (616) 697-5020.

Sincerely,

M. W. Rencheck
Vice President Nuclear Engineering
