Dear Mr. Switzer:

A letter dated June 26, 1975, from Thomas R. Wildman, Esq. of Day, Berry and Howard inquired as to whether the regular reporting requirements of the construction permit issued for the Millstone Nuclear Power Station, Unit No. 3 could be discontinued. Specifically, Paragraph 3.H of Construction Permit No. CPPR-113 requires the submission of monthly reports regarding changes and proposed changes in identity of owners and ownership interests and the monthly submittal of job progress reports and invoices.

The June 26, 1975 letter states that all planned transfers have been made except the transfer of ownership interest from the Green Mountain Power Corporation to the New England Power Company. Therefore, Mr. Wildman proposed that reports be submitted only when a change in identity of owners is planned. We have reviewed this proposal and find that although the monthly reports have been useful in monitoring the activities associated with the initial financial changes of the Millstone 3 facility, the suggested change is reasonable at this time since most of the foreseeable changes have been made. Accordingly, we have considered the June 26, 1975 letter as a request for an amendment to Construction Permit No. CPPR-113 and have revised Paragraph 3.H to require reports only when changes are anticipated.

We have concluded that the activities authorized by this amendment can be conducted without endangering the health and safety of the public and that authorization of this amendment to the permit does not involve a significant hazards consideration inasmuch as it involves no significant increase in the probability of an accident, no significant increase in the consequences of an accident, nor does it involve a significant decrease in the safety margin. Therefore, we have concluded that an amendment to the permit to revise the reporting requirements is appropriate.

DOCKET NO. 50-423

MILLSTONE NUCLEAR POWER STATION, UNIT NO. 3

AMENDMENT TO CONSTRUCTION PERMIT

Amendment No. 2

Construction Permit No. CPPR-113

1. The Nuclear Regulatory Commission (the Commission) having found that:
 - A. The application for amendment contained in a letter dated June 26, 1975, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations set forth in 10 CFR Chapter I;
 - B. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and
 - C. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

*The following are the holders of Construction Permit No. CPPR-113: Ashburnham Municipal Light Plant, Boylston Municipal Lighting Plant, Central Vermont Public Service Corporation, Chicopee Municipal Lighting Plant, City of Burlington, Vermont, City of Holyoke, Massachusetts Gas and Electric Department, The Connecticut Light and Power Company, Fitchburg Gas and Electric Light Company, Green Mountain Power Corporation, the Hartford Electric Light Company, Marblehead Municipal Light Department, Middleton Municipal Light Department, Montaup Electric Company, New England Power Company, North Attleborough Electric Department, Northeast Nuclear Energy Company, Paxton Municipal Light Department, Peabody Municipal Light Plant, Public Service Company of New Hampshire, Shrewsbury Light Plant, Templeton Municipal Lighting Plant, Town of South Hadley Electric Light Department, The United Illuminating Company, Vermont Electric Power Company, Inc., Wakefield Municipal Light Department, West Boylston Municipal Lighting Plant, Western Massachusetts Electric Company, Westfield Gas and Electric Light Department.

2. Accordingly, Construction Permit No. CPPR-113 is amended to reflect a change in the reporting requirements by deleting Paragraph 3.H and substituting the following therefor:

3.H The Applicants shall provide written notification to the Director of the Division of Reactor Licensing of any proposed change in (i) the identity of the owners of the facility and (ii) the ownership interest of any owner. No change in either the identity of the owners or the ownership interest of an owner shall be made without prior written approval of the Commission.

3. This amendment is effective as of the date of its issuance.

NOTICE OF ISSUANCE OF AMENDMENT TO

CONSTRUCTION PERMIT

Notice is hereby given that the U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 2 to Construction Permit No. CPPR-113 issued to the Northeast Nuclear Energy Company, et al. The amendment reflects a change in the reporting requirements of the permit for Millstone Nuclear Power Station, Unit No. 3 (the facility), located in New London County, Connecticut. The amendment is effective as of its date of issuance.

The amendment requires that the applicants report anticipated changes in owners or ownership interests only when such changes are planned. When the permit was issued, it required submission of monthly reports of such changes or proposed changes as well as submission on a monthly basis of job progress reports and invoices.

*The following are the holders of Construction Permit No. CPPR-113: Ashburnham Municipal Light Plant, Boylston Municipal Lighting Plant, Central Vermont Public Service Corporation, Chicopee Municipal Lighting Plant, City of Burlington, Vermont, City of Holyoke, Massachusetts Gas and Electric Department, The Connecticut Light and Power Company, Fitchburg Gas and Electric Light Company, Green Mountain Power Corporation, The Hartford Electric Light Company, Marblehead Municipal Light Department, Middleton Municipal Light Department, Montaup Electric Company, New England Power Company, North Attleborough Electric Department, Northeast Nuclear Energy Company, Paxton Municipal Light Department, Peabody Municipal Light Plant, Public Service Company of New Hampshire, Shrewsbury Light Plant, Templeton Municipal Lighting Plant, Town of South Hadley Electric Light Department, The United Illuminating Company, Vermont Electric Power Company, Inc., Wakefield Municipal Light Department, West Boylston Municipal Lighting Plant, Western Massachusetts Electric Company, Westfield Gas and Electric Light Department.

NOTICE OF ISSUANCE OF AMENDMENT TO

CONSTRUCTION PERMIT

Notice is hereby given that the U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 2 to Construction Permit No. CPPR-113 issued to the Northeast Nuclear Energy Company, et al. The amendment reflects a change in the reporting requirements of the permit for Millstone Nuclear Power Station, Unit No. 3 (the facility), located in New London County, Connecticut. The amendment is effective as of its date of issuance.

The amendment ^{requires that} ~~permits~~ the applicants ^{only} ~~to~~ report anticipated changes in owners or ownership interests when such changes are planned. When the permit was issued, it required submission of monthly reports of such changes or proposed changes as well as submission on a monthly basis of job progress reports and invoices.

*The following are the holders of Construction Permit No. CPPR-113: Ashburnham Municipal Light Plant, Boylston Municipal Lighting Plant, Central Vermont Public Service Corporation, Chicopee Municipal Lighting Plant, City of Burlington, Vermont, City of Holyoke, Massachusetts Gas and Electric Department, The Connecticut Light and Power Company, Fitchburg Gas and Electric Light Company, Green Mountain Power Corporation, The Hartford Electric Light Company, Marblehead Municipal Light Department, Middleton Municipal Light Department, Montaup Electric Company, New England Power Company, North Attleborough Electric Department, Northeast Nuclear Energy Company, Paxton Municipal Light Department, Peabody Municipal Light Plant, Public Service Company of New Hampshire, Shrewsbury Light Plant, Templeton Municipal Lighting Plant, Town of South Hadley Electric Light Department, The United Illuminating Company, Vermont Electric Power Company, Inc., Wakefield Municipal Light Department, West Boylston Municipal Lighting Plant, Western Massachusetts Electric Company, Westfield Gas and Electric Light Department.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment contained in a letter dated June 26, 1975, (2) Amendment No. 2 to Construction Permit No. CPFR-113, and (3) the Commission's related Safety Evaluation contained in the Commission's letter to the Northeast Nuclear Energy Company. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington D. C. and at the Waterford Public Library, Rope Ferry Road, Route 156, Waterford, Connecticut.

A copy of item (2) may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director of the Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 13th day of August, 1975.
