

**Westinghouse Owners Group**

**Lewis Ward (SNC), Chairman WOG LBR Working Group**

NRC Public Meeting Regarding Risk-informed  
Changes to 10CFR50.46 and Other LOCA-related  
Regulatory Requirements

May 9, 2001

1

**Westinghouse Owners Group**

- WOG maintains its position that LBLOCA Redefinition should be the first priority in the rulemaking recommendations
- Intend to proceed with effort on LBLOCA Redefinition as priority with some changes in approach in response to NRC comments

2

### **Westinghouse Owners Group**

- Implementation issues will have to be worked out for NRC recommended options similar to implementation issues related to LBLOCA Redefinition
- WOG level of involvement in development of other NRC recommendations will depend on details of the recommendations
- Reduction of decay heat conservatism in Appendix K should be implemented independent of risk informed initiative

3

### **Westinghouse Owners Group**

- Modification to LBLOCA Redefinition approach in response to NRC comments
  - Proposed rule to include commitment to maintain some mitigative capability for LBLOCA
- Will consider petition for rulemaking to enable LBLOCA Redefinition
