SUBJECT: TRANSFER OF FACILITY OPERATING LICENSES, INDIAN POINT NUCLEAR
GENERATING UNIT NOS. 1 AND 2 (TAC NOS. MB0743 AND MB0744)

Dear Messrs. Groth and Kansler:

In my letter of June 5, 2001, I indicated that the current schedule for the U.S. Nuclear Regulatory Commission (NRC) staff's review of your application to transfer the operating licenses for the Indian Point Nuclear Generating Unit Nos. 1 and 2 (IP1 and 2) from Consolidated Edison Company of New York, Inc. (ConEd) to Entergy Nuclear IP2 (ENIP2) and Entergy Nuclear Operations (ENO) would be reassessed upon receipt and evaluation of all required information. In a letter dated June 8, 2001, the NRC received a revised response from ENIP2 and ENO to the NRC's latest request for additional information dated May 4, 2001.

On the basis of its initial review of the June 8 response, the staff currently estimates completing the review, evaluation and processing of your application during the week of September 3, 2001. This estimate is predicated on the adequacy and completeness of your submitted information. Additionally, the staff is evaluating the recent Commission decision in its Memorandum and Order (CLI-01-14) in the matter of the Indian Point Nuclear Generating Unit No. 3 and James A. FitzPatrick Nuclear Power Plant license transfers petition as it may relate to IP1 and 2 application. If any questions arise as a result of our ongoing evaluations, the staff will contact your appropriate representatives as soon as possible.

Sincerely,

/RA/
