June 28, 2001

The Honorable Nancy Calhoun
New York State Assembly
Legislative Office Building, Room 318
Albany, New York 12248

SUBJECT: NRC ANNUAL PERFORMANCE ASSESSMENT OF INDIAN POINT UNIT 3

Dear Ms. Calhoun:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Entergy Nuclear Generation Company in which we will discuss our annual assessment of the safety performance of the Indian Point 3 Nuclear Power Plant (IP3).

The NRC completed its annual assessment of the safety performance of IP3 in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. We described our assessment results in a letter to Entergy Nuclear Generation Company on May 30, 2001, a copy of that letter is attached.

On July 11, 2001, the NRC will meet with the management of Entergy to discuss the safety performance of the Indian Point 3 Station. This meeting is scheduled to begin at 1:00 p.m., at the Theodore Hill Training Center at Indian Point 3 in Buchanan, New York, and is open to the public for observation.

The NRC staff will be available following the meeting to answer questions from you and members of the public regarding the Reactor Oversight Process. Also, this will provide you an opportunity to inform us of any current personal or constituent concerns with the Indian Point 3 Station, or to ask questions about the NRC annual assessment of performance at the station. In addition, you can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Indian Point 3 Station through the NRC Web site. This information may be accessed at http://www.nrc.gov/NRR/OVERSIGHT.

Your schedule permitting, I look forward to meeting you on July 11, 2001. In the interim, please do not hesitate to contact me at 610-337-5233, if I can be of further assistance to you.

Sincerely,

/RA/
Curtis J. Cowgill, Chief
Projects Branch 6
Division of Reactor Projects

We described our assessment results in a letter to Entergy Nuclear Generation Company on May 30, 2001, a copy of that letter is attached.

On July 11, 2001, the NRC will meet with the management of Entergy to discuss the safety performance of the Indian Point 3 Station. This meeting is scheduled to begin at 1:00 p.m., at the Theodore Hill Training Center at Indian Point 3 in Buchanan, New York, and is open to the public for observation.

The NRC staff will be available following the meeting to answer questions from you and members of the public regarding the Reactor Oversight Process. Also, this will provide you an opportunity to inform us of any current personal or constituent concerns with the Indian Point 3 Station, or to ask questions about the NRC annual assessment of performance at the station. In addition, you can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Indian Point 3 Station through the NRC Web site. This information may be accessed at http://www.nrc.gov/NRR/OVERSIGHT.

Your schedule permitting, I look forward to meeting you on July 11, 2001. In the interim, please do not hesitate to contact me at 610-337-5233, if I can be of further assistance to you.

Sincerely,

/RA/

Mr. Jim Baranski
New York State Emergency
Management Office
Building 22
State Campus
Albany, New York 12226

SUBJECT: NRC ANNUAL PERFORMANCE ASSESSMENT OF INDIAN POINT UNIT 3

Dear Mr. Baranski:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Entergy Nuclear Generation Company in which we will discuss our annual assessment of the safety performance of the Indian Point 3 Nuclear Power Plant (IP3).

The NRC completed its annual assessment of the safety performance of IP3 in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. We described our assessment results in a letter to Entergy Nuclear Generation Company on May 30, 2001, a copy of that letter is attached.

On July 11, 2001, the NRC will meet with the management of Entergy to discuss the safety performance of the Indian Point 3 Station. This meeting is scheduled to begin at 1:00 p.m., at the Theodore Hill Training Center at Indian Point 3 in Buchanan, New York, and is open to the public for observation.

The NRC staff will be available following the meeting to answer questions from you and members of the public regarding the Reactor Oversight Process. Also, this will provide you an opportunity to inform us of any current personal or constituent concerns with the Indian Point 3 Station, or to ask questions about the NRC annual assessment of performance at the station. In addition, you can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Indian Point 3 Station through the NRC Web site. This information may be accessed at http://www.nrc.gov/NRR/OVERSIGHT.

Your schedule permitting, I look forward to meeting you on July 11, 2001. In the interim, please do not hesitate to contact me at 610-337-5233, if I can be of further assistance to you.

Sincerely,

SUBJECT: NRC ANNUAL PERFORMANCE ASSESSMENT OF INDIAN POINT UNIT 3

Dear Ms. Matusow:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Entergy Nuclear Generation Company in which we will discuss our annual assessment of the safety performance of the Indian Point 3 Nuclear Power Plant (IP3).

The NRC completed its annual assessment of the safety performance of IP3 in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. We described our assessment results in a letter to Entergy Nuclear Generation Company on May 30, 2001, a copy of that letter is attached.

On July 11, 2001, the NRC will meet with the management of Entergy to discuss the safety performance of the Indian Point 3 Station. This meeting is scheduled to begin at 1:00 p.m., at the Theodore Hill Training Center at Indian Point 3 in Buchanan, New York, and is open to the public for observation.

The NRC staff will be available following the meeting to answer questions from you and members of the public regarding the Reactor Oversight Process. Also, this will provide you an opportunity to inform us of any current personal or constituent concerns with the Indian Point 3 Station, or to ask questions about the NRC annual assessment of performance at the station. In addition, you can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Indian Point 3 Station through the NRC Web site. This information may be accessed at http://www.nrc.gov/NRR/OVERSIGHT.

Your schedule permitting, I look forward to meeting you on July 11, 2001. In the interim, please do not hesitate to contact me at 610-337-5233, if I can be of further assistance to you.

Sincerely,

/RA/
Curtis J. Cowgill, Chief
Projects Branch 6
Division of Reactor Projects
