SUBJECT:

Solubility of Adhesive Model E117, used on labels

SUMMARY:

I called Ms. Cerone to clarify the statement in Paragraph 4, page 2, of MDS Nordion's letter dated January 19, 2000 regarding the adhesive Model E117. The letter stated that the adhesive is water based acrylic. Ms. Cerone stated that the term "water based" refers to the manufacturing process, it does not mean that the adhesive is soluble in water. She said that the adhesive is not soluble in water.
