Docket No. 50-293

Boston Edison Company  
M/C NUCLEAR  
ATTN: Mr. J. E. Larson  
Nuclear Licensing Administrator -  
Operations  
800 Boylston Street  
Boston, Massachusetts 02199

Gentlemen:

The enclosed "Notice of Consideration of Modification to Facility Spent Fuel Storage Pool" is to replace the one forwarded to you by my letter dated April 15, 1976. The revised copy corrects the date, in paragraph 2 of page 2 of the notice, to be May 24, 1976. The copy published in the Federal Register on April 22, 1976, contained the correct date.

Sincerely,

Original signed by  
Dennis L. Ziemann

Dennis L. Ziemann, Chief

UNITED STATES NUCLEAR REGULATORY COMMISSION

DOCKET NO. 50-293

BOSTON EDISON COMPANY

NOTICE OF CONSIDERATION OF PROPOSED MODIFICATION TO  
FACILITY SPENT FUEL STORAGE POOL

The Nuclear Regulatory Commission (the Commission) is considering the approval of a modification to the spent fuel storage pool of Unit 1 of the Pilgrim Nuclear Power Station (the facility) operated under Facility Operating License No. DPR-35 issued to the Boston Edison Company (the licensee). The facility is a boiling-water reactor located near Plymouth, Massachusetts, and is currently authorized to operate at 1998 megawatts (thermal).

The proposed modification being considered involves replacement of the existing racks in the spent fuel storage pool of the facility with racks of a design capable of accommodating up to 2500 fuel assemblies in accordance with the licensee's request dated December 17, 1975, as supplemental by letter dated January 22, 1976. The existing racks have a capacity for storage of 900 fuel assemblies.

If it is later determined that the modification requires changes to the facility Technical Specifications, a license amendment would be issued along with approval of the modification.

Prior to approval of the proposed modification and any license amendment, if necessary, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By May 24, 1976, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the approval of the modification to the subject facility spent fuel storage pool. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER Notice and Section 2.714, and must be filed with the Secretary of the Commission, U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, and to Mr. Dale G. Stoodley, Counsel, Boston Edison Company, 800 Boylston Street, Boston, Massachusetts 02199, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has the right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the licensee's proposal dated December 17, 1975, and the supplement thereto dated January 22, 1976, which are available for public inspection at the Commission's Public Document Room, 1717 H Street N. W., Washington, D. C.

and at the Plymouth Public Library on North Street in Plymouth, Massachusetts 02360. The Commission's approval and Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 15th day of April, 1976.

FOR THE NUCLEAR REGULATORY COMMISSION

*Dennis L. Ziemann*  
Dennis L. Ziemann, Chief
