Subject: TAC Number to Respond to SFP public comment assignments

To the reviewers responding to Spent Fuel Pool Decom. public comments:

Charge your time to MA5099, "Develop Risk Informed Basis For Revised Decomm. Regs".

Also, in the email I sent out yesterday evening, I asked everyone to let me know if certain public comments should be assigned to another branch by noon on Monday, July 19th. That was a typo. **The correct date is by noon on Monday, June 19th.** (see below)

Thank you

////////////////////////////////////

After reviewing the public comments assigned to your branch, if you think that certain public comments should be assigned to another branch, please forward that information to me by noon on Monday, July 19th, June 19th so that we can contact the appropriate branch to resolve the comments.

Just identify your branch, the public comment number from Attachment A, and who should be responding to that comment.

For example:
"SPLB, public comment #3, recommend (branch name)"

Thank you very much,

Tanya
