NRC SEEKS MEMBERS OF PUBLIC TO JOIN AN ADAMS USER GROUP TO ENHANCE COMMUNICATIONS WITH AGENCY

The Nuclear Regulatory Commission is seeking members of the public who use the agency's Agencywide Documents Access and Management System (ADAMS) to join a user group. It will provide participants with an opportunity to learn more about current and future plans for the system, as well as to discuss related public support programs and functional enhancements for the public access version of ADAMS.

The user group will be formed on July 18 at a meeting at NRC headquarters in Rockville, Maryland, from 1 p.m. to 3 p.m. Although a firm schedule has not been set, the group is expected to meet about four times a year. For those who cannot attend the group's initial meeting, the NRC is making arrangements for those interested to submit questions in advance as well as to obtain information about the proceedings via e-mail. The NRC also will have a toll-free telephone bridge so members of the user group can dial into meetings they cannot attend. The telephone bridge will accommodate 20 to 30 callers on a first-come, first-serve basis.

For more information on joining the ADAMS user group, please contact Thomas Smith at 301-415-7204, or toll-free at 1-800-368-5642, e-mail aug@nrc.gov. Further instructions will be sent to those who wish to participate by e-mail or telephone.
