Assurances offered after tour of plant

Chairman: Indian Point 2 is safe

NRC Chairman Richard A. Meserve offered assurances that the Indian Point 2 nuclear power plant is safe following a tour of the Buchanan, N.Y., facility on March 9.

Transcript of press conference. *Page 3.*

"After a very extensive effort of inspecting this plant, the Nuclear Regulatory Commission is comfortable that this plant is safe and has an adequate margin of safety," the Chairman said during a press conference in the plant's Energy Education Center. "We're comfortable with it continuing to operate."

MAKING A POINT: An NRC employee points something out to Chairman Richard A. Meserve during his tour of Indian Point 2 on March 9.

Dr. Meserve toured the plant prior to the news briefing accompanied by Executive Director for
