Dave ...very good..

I showed it to him prior to lunch...I added a paragraph on Corr action program...  
(I wanted him to have seen it prior to EDO call on IP2 at 1:00

More after call...lets sit with him and work another paragraph he wanted to expand....on the need for ConEd to respond to not only SG issues...(these are secondary...but the attitude of a proper corrective action program...)

Dave,

Let's get it to Hub...

I think the draft NRC response to Con Ed's NOV denial (crafted by Dave Lew) is a masterful piece of work, clear and disarming of Con Ed's contention.
