I assume NRR, at the top, is onboard and is prepared to lead the charge on this. Am I correct?

>>> Brian Holian 11/02 4:41 PM >>>

I talked to Joe Shea twice today on this issue.

Cmr Diaz requested a briefing.

I mentioned that the best time may be the week of the 13th...when the EN was set to come up to the Commission...(just prior to, or as it came up)

Joe floated that by the Diaz office. He called me back to say that Cmr Diaz would like it on the 16th. Joe asked if we could support. He knew about the evening meeting near IP2... on the 16th (7pm ).

we discussed video conference ...and he was going to discuss that with the Diaz office. I mentioned that NRR would have a bulk of the presentation (and they should be able to support) - and for sure be there in person.

Currently Dave Lew and myself were planning to go to NY for the evening meeting. Dave could possible stay back (and support in person with Trapp and other mgmt as necessary) - or we all tie in by video...

More to come..as Joe checks further with that office.
