**Date:** Mon, May 22, 2000 7:56 AM  
**Subject:** IP2 SG Inspection

We are beginning the IP2 SG inspection at Waltz Mill tomorrow with Wayne as the team lead. Cranston as the asst team leader. Part time will be Mike Modes, whose role will both be to provide guidance and be a devil's advocate for inspection findings. Mike will not be heading to the site. Contractors being lined up are Causis Dodd, Ian Barnes and Manu Subuhdi.

Wayne, who was slated to support the IP2 residents next week, will instead spend two days at TMI turning over with Dempsey. As a result, Cranston will be on site next week to be joined by Schmidt later in the week.
