Dear Mr. Jackson:

The purpose of this letter is to inform you of the individual examination results for your applicants on the initial written examination conducted on June 25, 2001, and the operating tests administered June 18-22, 2001 at your facility. This meets the intent of section E.1 of the Examiner Standards (ES 501) in NUREG 1021. Nine individuals were administered the examination and nine passed. This information is considered to be "proprietary" in accordance with 10 CFR 2.790 and it supplements the information contained in the related examination report for your facility which will be issued shortly.

The license for one operator will be issued once we receive written notification that he has completed the six months on-site experience for which he was previously granted a waiver.

Enclosure 1 is the completed ES-501-2, Power Plant Licensing Examination Results Summary, and is a summary of overall examination results.

Enclosure 2 contains the individual results ES-303-1 and 303-2, Operator License Examination Report, for the applicants. Contained therein are the deficiencies noted for each applicant. In accordance with your Systems Approach to Training (SAT) Program, we expect that you will review these results and provide appropriate remedial training for the individual independent of the overall pass status. The applicant has authorized the release of this information to your facility by signing Block 19A of NRC Form 398.

Enclosure 3 is a copy of the licenses.

Thank you for your cooperation in this matter. Please refer any questions you have to me at 610-337-5183.

Sincerely,

/RA/

Richard J. Conte, Chief
