Subject: potential questions for your inspection report

Dave,

Here are some questions we should expect to get....

Why don't you REQUIRE licensees to attend regulatory conferences so th
witness an airing of the issue?

Con Ed declined to attend a regulatory conference on the emergency prep
findings. Will they attend one this time?

What does a "red" finding mean?

Why didn't the NRC know there were problems with IP2's program in 199

Shouldn't the NRC have recognized these deficiencies in 1997?

Within the past month, IP2 has had "more than three White inputs in a pe
and a red input. What does that mean in terms of NRC response?

Will the utility be fined for this violation? Why not?

Remember, I wrote these without reading the report. Also we have the earlier Q&A ... so you won't have
