NRC Discrimination Task Group

Discrimination Task Group
Draft Review and Preliminary
Recommendations

Ralph Beedle, Senior Vice President
Nuclear Energy Institute
June 25, 2001

NRC's Evaluation Process

- ▶ **Perform internal evaluation of current NRC investigative and enforcement processes**
- ▶ **Obtain views of stakeholders through public meetings and written comments**
- ▶ **Review processes used by other federal agencies**

Stakeholders Agree on Need for Reform

.....

- ▶ **Strong consensus that NRC should revise approach to employee protection**
- ▶ **Stakeholders agree reform needed to address:**
 - ▶ **Conduct of OI investigations**
 - ▶ **Legal standards and evaluation process**
 - ▶ **Lack of fundamental fairness in enforcement process**
 - ▶ **Lack of transparency**
 - ▶ **Lack of timeliness**

Discrimination Task Group Draft Review and Preliminary Recommendations

.....

- ▶ **Suggests lack of objectivity**
 - ▶ Largely justifies the *status quo*
 - ▶ Fails to consider processes of other agencies
- ▶ **Suggests lack of appreciation of stakeholder concerns**
- ▶ **Recommended changes will not produce a fairer, more understandable process**
 - ▶ Result will be greater duplication and inefficiency
- ▶ **Fails to justify significant expenditure of resources given industry performance**

NRC Should Reconsider Preliminary Findings and Recommendations

.....

- ▶ **NRC recommendations do not address issues of fundamental fairness**
 - ▶ **Retain current approach to conduct of investigations**
 - ▶ **Retain current legal standards/evidentiary bases for enforcement**
 - ▶ **Eliminate predecisional enforcement conference**
 - ▶ **No opportunity for hearing by individual subject to NOV**
 - ▶ **Continued failure to provide full explanation of bases for enforcement action**

NRC Should Reconsider Policy Issues

- ▶ **Conduct of independent investigation and enforcement action**
- ▶ **Threshold for initiation of OI investigation**
- ▶ **Adverse impact on nuclear employee accountability**
- ▶ **Promotion of settlement through credit in Enforcement Policy**

Bases for Reform of 50.7 Implementation

- ▶ **Nuclear industry performance demonstrates freedom of employees to report safety concerns**
- ▶ **Preserving nuclear employee accountability is an important public interest**
- ▶ **Current legal and evidentiary standards are inappropriate**
- ▶ **Lack of openness and transparency undermines credibility of results**
- ▶ **Current process promotes inefficient use of NRC resources**

Achieving Reform

- ▶ **Fundamentally revise NRC’s approach to individual discrimination claims by allowing Department of Labor to handle in first instance**
 - ▶ **Other federal agencies with similar public health and safety responsibility do not independently investigate or take enforcement action on grounds of discrimination**
- ▶ **NRC could retain enforcement authority--reserved for “exceptional circumstances”**

Achieving Reform, con't

.....

- ▶ **Revise the current process to achieve greater fairness, appropriate allocation of resources and transparency**
 - ▶ **Adopt appropriate threshold for initiation of OI investigation**
 - ▶ **Adopt and apply appropriate legal standard and “preponderance of evidence” standard**
 - ▶ **Provide *meaningful* predecisional enforcement conference**
 - ▶ **Provide full and reasoned explanation of bases for enforcement**
 - ▶ **Provide right to hearing for individual subject to enforcement**

Conclusions

- ▶ **NRC should withdraw preliminary report and reconsider input from stakeholders and other agencies**
- ▶ **Substantive reform is imperative to address the flaws in the current process**
- ▶ **All stakeholders will benefit from a fairer, more open, and more timely approach**
