Subject: Fwd: Re: Con Edison Lawsuit with Westinghouse

Since Dave Lew's message suggests that this info has, as it's source, a proprietary document, shouldn't we decide if this email is proprietary? At least we should control it that way until the question is resolved.

Also, do we have a position re: potential NRC interest in the alleged withholding of important info by Westinghouse??? Granted, the info was allegedly withheld from ConEd and not necessarily from us; however, Part 21, once that rule was put in effect, would have made Westinghouse think carefully about whether a significant nonconformance existed.

Jim

Some interesting feedback from IP2 SRIs review of lawsuit info.
