Lisle, Illinois 60532-4351

Dear Mr. Lickus:

As you are aware, last month Doreen Hagen and Heather Westra attended the Nuclear Reactor Concepts workshop held at Region III. Both Doreen and Heather were impressed by the course content and the course delivery. We would like to make this workshop available on our reservation. We feel that this course would benefit Tribal Council members, tribal staff (i.e., governmental affairs, legal, technical, etc.), and possibly some of our consultants. We would also make this course available to representatives from the City of Red Wing and Goodhue County, as well as interested representatives from Xcel Energy or the Nuclear Management Company.

We would be able to assist with travel costs, if it is necessary to bring this opportunity to our community. If this is agreeable to you, please work with Heather Westra to coordinate the details.

Thank you for your assistance and interest in the Prairie Island Indian Community.

Respectfully,

absent
Audrey Kohnen
