JUNE 2001 MONTHLY OPERATING REPORTS

Gentlemen:

In accordance with Technical Specification (TS) 5.6.4 for the Brunswick Steam Electric Plant (BSEP), Unit Nos. 1 and 2, Carolina Power & Light (CP&L) Company is submitting the enclosed Monthly Operating Reports for June 2001. These reports are being submitted to the NRC by the 15th day of the month following the calendar month covered by the reports, as specified in TS 5.6.4.

For BSEP, Unit 1, the reported value for cumulative number of hours the generator was on line has been updated to a level of precision consistent with the data being reported for BSEP, Unit 2. This change has resulted in a difference of 0.3 hours versus the sum of the previous month's cumulative generator on line hours plus the current month's generator on line hours.

There are no regulatory commitments being made in this submittal. Please refer questions regarding this submittal to Mr. Leonard R. Beller, Supervisor – Licensing/Regulatory Programs, at (910) 457-2073.

Sincerely,

David C. DiCello
Manager - Regulatory Affairs
