SUBJECT: ARKANSAS NUCLEAR ONE, UNIT 1 - DRAFT SAFETY EVALUATION FOR
THE CONVERSION TO IMPROVED TECHNICAL SPECIFICATIONS
(TAC NO. MA8082)

Dear Mr. Anderson:

Enclosed for your review is a draft safety evaluation (SE) for the conversion of the current Technical Specifications (CTS) for Arkansas Nuclear One, Unit 1, to improved Technical Specifications (ITS). The draft SE includes tables that list the changes to the CTS. As agreed to by your staff, please provide your comments on the draft SE by August 15, 2001, to support the overall schedule for the Nuclear Regulatory Commission (NRC) staff to complete its review and for you to implement the ITS amendment. We also request that your response to this letter address any recently issued license amendments and the license conditions for implementing the ITS.

The NRC staff's review of your application and the enclosed draft SE is ongoing. If you choose, you may address any outstanding questions, such as those regarding requirements for electrical power distribution during shutdown conditions, along with your comments on the enclosed draft SE.

Sincerely,

/RA/

William Reckley, Project Manager, Section 1
Project Directorate IV
Division of Licensing Project Management
Office of Nuclear Reactor Regulation
