RE: Use of checklist and working life for SSD 00-09

A checklist was not used for this review due to the fact that no review was performed on technical content.

Working life was not addressed during this review due to the fact that no review was performed on technical content. This memorandum also documents that the working life is not listed on certificate NR-0776-D-102-E in accordance with the limited format for the registration certificate of an exempt-use product, including smoke detectors. as illustrated in Appendix H of NUREG-1556, Vol. 3, dated July 1998. It is noted that working life is addressed in the background file.
