

General Services Administration
Office of Administration
Washington, DC 20405

2 1 NOV 1989

Mr. John C. Hoyle
Advisory Committee
Management Officer
Nuclear Regulatory Commission
Office of the Secretary
Washington, DC 20550

Dear Mr. Hoyle:

This Letter confirms the Committee Management Secretariat's verbal response of November 21, 1989, to your correspondence of October 24, proposing to establish the Licensing Support System Advisory Review Panel for a period of 2 years.

The General Services Administration (GSA) has reviewed the consultation as provided by the Federal Advisory Committee Act, as amended, and the GSA Final Rule on Federal advisory committee management. The Panel meets the objectives identified by the agency and the requirements of the statute, including appropriate certifications of necessity, balance, lack of duplication, and other applicable information. From this review the Panel appears to be an effective way of obtaining the technical and program advice you seek.

Accordingly, GSA concurs in the establishment of this Panel. Should your staff need additional information or assistance, they may contact this office at 523-4884.

Sincerely,

James L. Dean
Director
Committee Management Secretariat
