Chattanooga, TN 37402-2801

SUBJECT: SEQUOYAH NUCLEAR PLANT, UNITS 1 AND 2 — CORRECTION TO
AMENDMENT NOS. 269 AND 259 REGARDING ICE CONDENSER ICE
SAMPLING AND ANALYSIS (TAC NOS. MB1733 AND MB1734) (TS 00-02)

Dear Mr. Scalice:

The Commission issued License Amendment No. 269 to Facility Operating License No. DPR-77 and Amendment No. 259 to Facility Operating License No. DPR-79 on July 12, 2001, for the Sequoyah Nuclear Plant, Units 1 and 2, respectively. These amendments were in response to your application dated April 12, 2001. The amendments revised the Technical Specifications (TS) and associated Bases to change the methodology and frequency for sampling the ice condenser ice bed (stored ice) and added a new TS and associated bases to address sampling requirements for all ice additions to the ice bed. Sequoyah's license amendment application requested that the amendments become effective (i.e., be implemented) during each unit's Cycle 11 refueling outage (fall 2001 for Unit 1, spring 2002 for Unit 2). The staff inadvertently used the standard 45-day implementation statement in the amendments. This letter transmits corrected license pages that respond to the request in the application.

Sincerely,

/RA by M. Padovan Acting for/

Ronald W. Hernan, Senior Project Manager, Section 2
Project Directorate II
Division of Licensing Project Management
Office of Nuclear Reactor Regulation
