

July 24, 2001

MEMORANDUM TO: Richard Wessman, Director
Incident Response Organization

FROM: Michael F. Weber, Director */RA/*
Division of Fuel Cycle Safety
and Safeguards

SUBJECT: SUPPORT FOR TIMELY RESPONSE EXERCISE

The purpose of this memorandum is to inform you of our sincere appreciation for the support that the Incident Response Organization (IRO) provided to the Division of Fuel Cycle Safety and Safeguards in conducting the unannounced, "Timely Response" Exercise on Friday, July 13, 2001. Although this exercise was not included in the original planning forecasts, IRO provided its facilities, resources, and contractor support to make the exercise an overwhelming success.

Specifically, we appreciated the efforts of Karen Jackson, Steve McGuire, Rick Hasselburg, Joe Himes, Jane Gunn and Tom Kadaras in the pre-planning stages. They assisted us in numerous planning meetings, participated in development of the scenario, provided exercise guidance, and assisted with many administrative and logistical activities. We would like to especially note Mr. Hasselburg's and Mr. Kadaras' exceptional and outstanding support during the exercise. Without Rick's support with systems setup, liaison and integration with the Headquarters Operation Officer, and his candid and keen insights, this exercise would not have been possible. Mr. Kadaras, supported our efforts with testing the Automatic Notification System and explained system capabilities. Rick, Karen, Steve, Joe, Jane and Tom always had very professional and team-player attitudes, and are a great asset to your office and the Agency.
