

July 11, 2001

Mr. John K. Wood
Vice President - Nuclear
FirstEnergy Nuclear Operating Company
P. O. Box 97, A200
Perry, OH 44081

SUBJECT: PERRY NUCLEAR POWER PLANT
NRC INSPECTION REPORT 50-440/01-302(DRS)

Dear Mr. Wood:

On June 19, 2001, the NRC completed initial operator licensing retake examinations at your Perry Nuclear Power Plant. The enclosed report presents the results of the examination.

The retake written examination was conducted by an NRC examiner on June 19, 2001. One senior reactor operator and three reactor operator applicants were administered license examinations.

The results of the examinations were finalized on July 3, 2001. All four applicants passed their respective retake written examinations and were issued applicable operator licenses.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of the NRC's document control system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADQAMS/index.html> (the Public Electronic Reading Room).

SUMMARY OF FINDINGS

ER 05000440-01-302(DRS), on 06/19/2001, FirstEnergy Nuclear Operating Company, Perry Nuclear Power Plant, Unit 1. Initial Operator License Examination Report.

The announced operator licensing initial retake examination was conducted by a regional examiner in accordance with the guidance of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 8, Supplement 1.

Examination Summary:

- One senior reactor operator and three reactor operator applicants were administered retake written examinations for initial operator licensing. All four applicants passed their respective retake written examinations and were issued applicable operator licenses (Section 4OA5.1).

Report Details

4. OTHER ACTIVITIES (OA)

4OA5 Other

.1 Initial Licensing Examinations

a. Inspection Scope

An NRC examiner conducted announced retake operator licensing initial written examinations on June 19, 2001. The licensee used the guidance established in NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 8, Supplement 1, to prepare the examination outline and to develop the written examinations. One senior reactor operator and three reactor operator applicants were examined.

b. Findings

Written Examination

The NRC examiners determined that the written examination, as originally submitted by the licensee, was within the range of acceptability expected for a proposed examination. No post examination comments were submitted by the licensee.

Examination Results

All four applicants passed their respective retake written examinations and were issued applicable operator licenses.

.2 Examination Security

a. Inspection Scope

An NRC examiner reviewed and observed the licensee's implementation of examination security requirements during the examination preparation and administration.

b. Findings

The NRC examiner determined that the licensee's examination security practices associated with the development and administration of the operator license examinations were satisfactory. No significant issues were identified.

4OA6 Meeting(s)

Exit Meeting

The written examination results were presented to Mr. Johnson and Mr. Higaki via a telephone conversation on July 3, 2001 and to Mr. Veitch on July 6, 2001. The licensee acknowledged the presented results.
