To: PVNGS UFSAR Copyholders

**Subject: Palo Verde Nuclear Generating Station (PVNGS)
 Updated Final Safety Analysis Report (UFSAR)
 Revision 11**

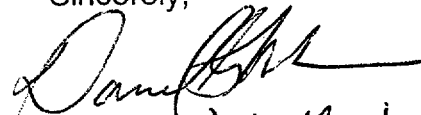

This letter transmits Revision 11 of the PVNGS UFSAR. Paper copies that are being maintained are listed below and will be updated as change packages are approved and issued.

- | | |
|---|---------------------------------|
| Unit 1, 2 and 3 OPs Support Buildings (3) | Service Building (1) |
| Technical Support Center (1) | Building 'A' Library (1) |
| Emergency Operation Facility (1) | Technical Publishing (1) |
| Licensing (1) | NRC Residents (1) |
| Joint Emergency News Center (JENC) (1) | Emergency Operations Center (1) |
| Bechtel (1) | |

For other copyholders, UFSAR Revision 11 is contained on the enclosed compact disk. PVNGS intends to develop an interim update process for the compact disk version of the UFSAR. Until that time, hard copy updates will be sent to copyholders that currently receive these interim updates. PVNGS is working to completely eliminate the paper copies of the UFSAR over the next two years. This may require some changes by the user. Our staff will attempt to help users make this transition. However, software and hardware issues may require the user to implement upgrades outside the responsibility of APS, Palo Verde, or the PVNGS Licensing staff.

Should you have any comments or questions concerning the distribution of UFSAR Revision 11, please contact Tom Weber at (623) 393-5764.

Sincerely,

 Daniel G. Marks for S.A.B.
