Subject: Re: Meeting with Staff on IP-2 Letter

At IP2's request...we have put off the exit meeting until Thursday so that John Groth could attend. This request was convenient for us also...as we are in the final give and take with NRR on the Inspection summary characterization...

We have already debriefed with the licensee (by phone on Friday).

more discussion at 4 pm
thanks
Brian

A meeting has been arranged at the request of Brian Sheron to better understand the staff's concerns with the operational assessment and, in particular, the possible corrective actions for row 3 tubes.

The meeting will take place in Conference Room O-5-B-4 at 4:00 pm today, July 17, 2000.

Region I: If you desire to listen in on the discussions, please let me know and provide a phone number.
