Sirs:

Enclosed is one copy of Revision IX of the Physical Security Plan for the U.S. Geological Survey TRIGA Reactor Facility. The plan was revised as permitted by 10 CFR 50.54(p) and this document is submitted accordingly. The USGS Reactor Operations Committee approved the changes to the Physical Security Plan after finding them to not decrease the effectiveness of the plan.

The changed text areas of the plan are marked with a vertical line in the margins on the respective pages. Please contact Tim DeBey, Reactor Supervisor, at (303) 236-4726 if you have questions regarding this physical security plan revision or need further details. Details of the changes are as follows, with page numbers referring to the enclosed copy.

1. All dashed change bars designate reformatting of the sentences for grammar improvements. Dashed bars also indicate reformatting of Figures 6.2 and 6.3 (pages 4 and 5). Solid change bars designate changes described below.

Sincerely,

Thomas D. Fouch
