NRC NAMES NEW SENIOR RESIDENT INSPECTOR AT QUAD CITIES NUCLEAR POWER PLANT

Nuclear Regulatory Commission officials in Lisle, Illinois, have announced the assignment of Karla Stoedter as the agency's Senior Resident Inspector at the Quad Cities Nuclear Power Station near Cordova, Illinois. The plant is operated by Exelon Generating Company.

Stoedter replaces Chris Miller who has been the Senior Resident Inspector at the plant since 1994. Miller has accepted an operator licensing position in the agency's Lisle, Illinois, regional office.

Stoedter, who began her duties at the Quad Cities plant July 16, joined the NRC as a reactor engineering intern in July 1991. She was a resident inspector at the Clinton Nuclear Power Station near Clinton, Illinois, from 1995 until 2000 when she became a reactor engineer in the regional office.

A native of the Quad Cities area, Stoedter earned a bachelor's degree in nuclear engineering from the University of Illinois-Urbana/Champaign, and a master's degree in business administration from Eastern Illinois University. She and her husband, Gary, live in Port Byron, Illinois.

Stoedter joins Resident Inspector John Adams at Quad Cities. They can be reached at the plant at (309) 654-2227.
