## **NRC TO MEET WITH ENTERGY NUCLEAR NORTHEAST TO DISCUSS PERFORMANCE AT INDIAN POINT 3 NUCLEAR POWER PLANT**

Nuclear Regulatory Commission staff will meet with representatives of Entergy Nuclear Northeast on Wednesday, July 11, to discuss the results of the agency's annual assessment of safety performance at the Indian Point 3 nuclear power plant.

The meeting, which will be open to the public for observation, will begin at 1 p.m. in the Training Center at the plant, located at Broadway and Bleakley Avenue in Buchanan, N.Y. NRC officials will be available afterwards to informally answer questions from meeting observers.

The performance period to be discussed is April 1, 2000, to March 31, 2001. Overall, the NRC found that the plant operated in a manner that preserved public health and safety and fully met all cornerstone objectives during the period. A letter sent from the NRC Region I office to Entergy Nuclear Northeast addresses plant performance during the period and will serve as the basis for the meeting discussion. It is available on the NRC web site at: [www.nrc.gov/OPA/ppr/ip3\\_eoc2001.pdf](http://www.nrc.gov/OPA/ppr/ip3_eoc2001.pdf).
