MEETING WITH LOCAL OFFICIALS , ST. LUCIE NUCLEAR PLANT - DOCKET
NOS. 50-335, 50-389

Dear Mr. Stall:

This refers to two meetings conducted at our request at the St. Lucie Nuclear Plant Training Center on July 10, 2001. The first meeting was the Annual Assessment meeting. The purpose of this meeting was to discuss the NRC's Reactor Oversight Process (ROP) annual assessment of safety performance for St. Lucie Nuclear Plant for the period of April 2, 2000 - March 31, 2001.

The major topics addressed were: the NRC's assessment program, the results of the St. Lucie Nuclear Plant assessment, and the NRC's Agency Action Matrix. Attendees included Florida Power and Light (FPL) site management, FPL staff, NRC staff, one citizen, and nine local officials.

Following the annual assessment meeting, a separate meeting was held with local officials to discuss the ROP and NRC activities involving St. Lucie Nuclear Plant. Attendees included: NRC staff, nine local officials, and several FPL staff members.

Both of the meetings were open to the public. Information used for the discussions of the ROP is available from the NRC's document system (ADAMS) as accession number ML 011980088 which can be accessed from the electronic address provided below.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room (PDR) or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).
