MDS Nordion

This note to the file of SSD case # 00-34 is to document the fact that a referenced document is not in the file.

After thoroughly reviewing the case files for the above named certificates, I have been unable to locate a copy of a document referenced in the certificates. The document is listed as, "Nordion International, Inc. letter dated November 18, 1991." This document is not in the case file, is not in ADAMS and could not be found in NUDOCS.

In addition, I checked other similar Nordion cases, listed below. In all five of these cases, the same document is listed as either a "Nordion International, Inc. letter dated November 18, 1991", or "Nordion International, Inc. letter received on November 18, 1991." Not one of these five case files had a copy of the letter.

What I do know about the letter is that it was in preparation for a meeting between Nordion and NRC on November 19, 1991, to discuss Nordion's intentions to inactivate several sources and devices.
