Mr. Tom McGowan  
720 So. Casino Center Blvd.  
Apt. 5  
Las Vegas, NV 89101

Dear Mr. McGowan:

Thank you for attending the U.S. Nuclear Regulatory Commission's (NRC's) May 23, 2001, public meeting in Las Vegas, Nevada. We appreciate your attendance and were pleased to meet with you. The purpose of this meeting was to provide an overview of the hearing process that the agency would use to decide whether to issue a construction authorization for a potential high-level radioactive waste repository, if the Department of Energy submits an application to build such a repository at Yucca Mountain, Nevada. As you requested, I am enclosing a copy of the official meeting transcript.

We have an important role to play in protecting the health and safety of the people of Nevada and the environment. Because we are committed to building a long-term relationship with the residents of Nevada, we plan to return to Nevada for future public meetings on other topics related to the proposed repository and NRC's role in ensuring public health and safety. We look forward to meeting with you again.

Sincerely,

/RA/

C. William Reamer, Chief  
High-Level Waste Branch  
Division of Waste Management  
Office of Nuclear Material Safety  
and Safeguards
