Mr. William O. Parker, Jr.
 Vice President - Steam Production
 Duke Power Company
 P. O. Box 33189
 422 South Church Street
 Charlotte, North Carolina 28242

Dear Mr. Parker:

The Commission has issued the enclosed Amendments Nos. 97, 97, and 94 to Facility Operating Licenses Nos. DPR-38, DPR-47 and DPR-55 for the Oconee Nuclear Station, Units Nos. 1, 2 and 3, in response to your submittals of March 23, 1979 (subsequently resubmitted August 3, 1979, as revised May 30, 1980) and August 17, 1979 (as revised June 9, 1980).

These amendments modify the licenses to include a requirement to: (1) maintain a Safeguards Contingency Plan to be fully implemented, in accordance with 10 CFR 73.40(b), within 30 days of this approval; and (2) maintain a Guard Training and Qualification Plan to be followed, in accordance with 10 CFR 73.55(b), within 60 days of this approval by the Commission. With regard to Item 2, all security personnel shall be qualified within two years of this approval.

We have completed our review and evaluation of your Safeguards Contingency Plan and your Guard Training and Qualification Plan and have concluded that the plans for your facilities, when fully implemented, will provide the protection needed to satisfy the objectives of the specific requirements of 10 CFR 73.55(h) and 73.55(b)(4) and Appendices B and C to 10 CFR 73. We, therefore, further conclude that your Safeguards Contingency Plan and Guard Training and Qualification Plan are acceptable.

Changes which would not decrease the safeguards effectiveness of your approved Safeguards Contingency Plan and Guard Training and Qualification Plan may be made without approval by the Commission. A report containing a description of each change shall be furnished to the Director, Office of Nuclear Reactor Regulation, U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, with a copy to the appropriate NRC Regional Office within two months after the change is made. Records of changes made without Commission approval shall be maintained for a period of two years from the date of change.

Mr. William O. Parker, Jr.

-2-

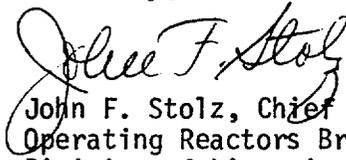

The amendments apply to the Safeguards Contingency Plan and Guard Training and Qualification Plan and, therefore, do not authorize a change in effluent types or total amounts nor an increase in power level, and will not result in any significant environmental impact. Having made this determination, we have further concluded that the amendments involve an action which is insignificant from the standpoint of environmental impact and pursuant to 10 CFR 51.5(d)(4) that an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of these amendments.

Since the amendments apply to the Safeguards Contingency Plan and Guard Training and Qualification Plan, they do not involve a significant increase in the probability or consequences of an accident, do not involve a significant decrease in a safety margin and, therefore, do not involve a significant hazards consideration. We have also concluded that there is reasonable assurance that the health and safety of the public will not be endangered by this action and that the issuance of these amendments will not be inimical to the common defense and security or to the health and safety of the public.

We will continue to withhold your Safeguards Contingency Plan and Guard Training and Qualification Plan and related materials from public disclosure in accordance with the provisions of 10 CFR 2.790(d).

A copy of the Notice of Issuance is also enclosed.

Sincerely,

John F. Stolz, Chief
Operating Reactors Branch #4

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 97, 97 and 94 to Facility Operating Licenses Nos. DPR-38, DPR-47 and DPR-55, respectively, issued to Duke Power Company, which revised the licenses for operation of the Oconee Nuclear Station, Units Nos. 1, 2 and 3 (the facilities) located in Oconee County, South Carolina. The amendments are effective as of the date of issuance, and are to be implemented in accordance with the provisions of 10 CFR 73.40(b) and 10 CFR 73.55(b)(4).
