Mr. S.Y. Chen  
ANSI/HPS N13.60 Working Group Chair  
Argonne National Laboratory  
Environmental Assessment Division  
9700 South Cass Avenue  
Argonne, IL 60439

SUBJECT: INVITATION TO PARTICIPATE IN THE ANSI/HPS WORKING GROUP N13.60,  
"STANDARDS FOR LATE PHASE PROTECTIVE ACTIONS IN POST-  
NUCLEAR ACCIDENTS"

Dear Mr. Chen:

This is in response to your invitation of June 29, 2001, to participate in a new ANSI/HPS Working Group. The Federal Radiological Preparedness Coordinating Committee's (FRPCC) standing Protective Action Guides (PAG) Subcommittee is tasked with assisting the Environmental Protection Agency (EPA) in the development of a new revision to the PAGs, including Late Phase PAGs. The process of developing a revised PAG Manual is well underway. A draft PAG Manual was developed by EPA in January 2001 to begin the process. This draft was issued for comment to other FRPCC agencies and States and comments are now being consolidated by EPA to forward to the subcommittee for review. The NRC is currently participating as a member of the PAG Subcommittee.

The FRPCC has had the responsibility for revising the PAG Manual in the past and has the appropriate emergency preparedness representation in the various Federal agencies. It appears that the ANSI/HPS Working Group membership is still being identified and does not have key Federal representation yet. Because the NRC is already participating in the FRPCC Subcommittee and because this group is already in the process of revising the PAG Manual, it seems more efficient for NRC to continue its effort as part of the FRPCC PAG Subcommittee rather than to participate in a separate industry effort at this time. Therefore, although we appreciate your invitation, we do not intend to provide a nominee to participate in the proposed ANSI/HPS Working Group.

Sincerely,

***/RA by Ashok C. Thadani Acting For/***
