Dear Mr. Johnson:

Thank you for your letter of July 27 requesting the participation of Dr. J. Persensky in the working group to review the Nuclear Energy Plant Optimization (NEPO) program on hybrid control rooms. We would be pleased to make Dr. Persensky available to participate in this effort as an NRC representative. We understand that this would involve participating in 2-4 meetings per year over a 2-3 year period and would include review and comment on drafts of guidelines developed as part of the effort as well as plans and progress. We will make all reasonable effort to incorporate this effort into his schedule, but NRC work will have to take precedence, if ever there is a conflict.

Sincerely,

/R/
