To Whom It May Concern:

We are
Since we ~~am~~ *are* opposed to the NRC proposed rulemaking as described in
The Federal Register, April 16, 2001, Vol. 66 to change the
licensing hearing process for nuclear power reactors. The public
is entitled to full and meaningful participation in an on-the-
record hearing process for the licensing of new reactors, the
relicensing of aging reactors and industry amendments to
operating license safety requirements. *We have personally seen*
how the NRC operates - it needs public participation!
