UNITED STATES NUCLEAR REGULATORY COMMISSION

DOCKET NO. 50-424

GEORGIA POWER COMPANY

ALVIN W. VOGTLE NUCLEAR PLANT, UNIT 1

AMENDMENT TO CONSTRUCTION PERMIT

Amendment No. 1

Construction Permit No. CPPR-108

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The application for amendment to Construction Permit No. CPPR-108 filed by Georgia Power Company, dated July 11, 1975, for the purpose of extending completion dates for the facility, and the application for amendment to such construction permit filed by Georgia Power Company, Oglethorpe Electric Membership Corporation, Municipal Electric Authority of Georgia and the City of Dalton (hereinafter collectively referred to as "applicants") dated July 15, 1975, as amended on December 15, 1975, and September 16, 1976, for the purpose of adding Oglethorpe Electric Membership Corporation, Municipal Electric Authority of Georgia and the City of Dalton as co-owners of the facility, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations set forth in 10 CFR Chapter I;
  - B. Good cause has been shown for the extension of completion dates as stated in the Atomic Safety and Licensing Board's Supplemental Initial Decision dated January 11, 1977.
  - C. The applicants are financially qualified for joint participation in the ownership of the proposed facility in the ownership percentages stated in the application, provided that in the case of the City of Dalton, satisfactory evidence of bond valuation is provided to the Director Nuclear Reactor Regulation in accordance with paragraph 1.E. below;
  - D. The issuance of this amendment will not be inimical to the common defense or to the health and safety of the public;
  - E. The issuance of this amendment has been authorized by the Supplemental Initial Decision (Construction Permit Proceeding) of the Atomic Safety and Licensing Board, dated January 11, 1977, subject to the condition that prior to the issuance of an amendment adding co-owners, the Director of Nuclear Reactor Regulation is provided with the following documents:

- (1) A copy of the Commitment Notice on a loan guaranteed by the Rural Electrification Administration;
  - (2) Evidence of bond validation from both Municipal Electric Authority of Georgia and the City of Dalton; and
  - (3) Documentation of approval by the Securities and Exchange Commission to Georgia Power Company of the sale of its ownership interests in the facility;
- F. All of the documents referred to in paragraph 1.E. above have been received by and are satisfactory to the Director of Nuclear Reactor Regulation, except evidence of bond validation from the City of Dalton.
- G. The issuance of this amendment is in accordance with 10 CFR Part 51.
2. Accordingly, pursuant to the Supplemental Initial Decision dated January 11, 1977, Construction Permit No. CPPR-108 is amended to reflect a change in the ownership and construction completion dates as follows:
- A. Paragraph 1.B is amended by deleting the parenthetical phrase "(the applicant)".
  - B. Paragraphs 1.D and 1.F are amended by deleting all references to "the applicant" and substituting "Georgia Power Company."
  - C. Paragraph 1.G is deleted and the following paragraph substituted:

"1.G. Georgia Power Company, Oglethorpe Electric Membership Corporation, Municipal Electric Authority of Georgia and the City of Dalton (collectively hereinafter referred to as "applicants") are financially qualified to design and construct their respective shares of the facility, provided that in the case of the City of Dalton, satisfactory evidence of bond validation is provided to the Director of Nuclear Reactor Regulation."
  - D. Paragraph 2 is deleted and the following paragraph substituted:

- "2. Pursuant to Section 103 of the Atomic Energy Act of 1954, as amended (the Act), and Title 10, Chapter I, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities", and pursuant to the Initial Decisions of the Atomic Safety and Licensing Board dated May 24, 1974, June 27, 1974, and January 11, 1977, the Nuclear Regulatory Commission (the Commission) hereby issues a construction permit to the Georgia Power Company, the Oglethorpe Electric Membership Corporation, the Municipal Electric Authority of Georgia, and the City of Dalton, Georgia (the applicants), as their interests appear in the application to add co-owners, as amended, for a utilization facility designed to operate at 3411 megawatts thermal as described in the application and amendments thereto (the application) filed in this matter by Georgia Power Company and as more fully described in the evidence received at the public hearing upon that application, provided that the City of Dalton shall not become a co-owner of the facility until evidence of bond validation has been received from the City of Dalton and the Director of Nuclear Reactor Regulation has advised applicants that such evidence is satisfactory. The facility, known as the Alvin W. Vogtle Nuclear Plant, Unit 1, will be located at the site as described in the application, in Burke County, Georgia."
- E. Paragraph 3.A is amended to reflect a change in estimated construction completion date as follows:
- "3.A. The earliest date for the completion of the facility is October 1981, and the latest date for completion is April 1983."
- F. Paragraph 3.C is amended by deleting "applicant" and substituting "applicants".
- G. Paragraph 3.E is amended by deleting all references to "applicant" and substituting "Georgia Power Company".

- d. Paragraph 4 is amended by deleting the phrase "the applicant submits" in both places where the phrase occurs and substituting "the applicants submit".
3. The rights of creditors shall be in accordance with the provisions of 10 CFR Part 50 § 50.81.
4. This amendment is effective as of the date of its issuance.

UNITED STATES NUCLEAR REGULATORY COMMISSION

DOCKET NOS. 50-424 AND 50-425

GEORGIA POWER COMPANY

NOTICE OF ISSUANCE OF AMENDMENTS TO

CONSTRUCTION PERMITS NOS. CPPR-108 AND CPPR-109

Notice is hereby given that the U. S. Nuclear Regulatory Commission (the Commission) pursuant to a Supplemental Initial Decision dated January 11, 1977, has issued Amendment No. 1 to Construction Permits Nos. CPPR-108 and CPPR-109 issued to Georgia Power Company for the construction of Alvin W. Vogtle Nuclear Plant, Units 1 and 2, respectively. These units are pressurized water reactors and are located in Burke County, Georgia. The amendments are effective as of the date of issuance.

The amendments reflect a change in ownership of Alvin W. Vogtle Nuclear Plant, Units 1 and 2. As a result of the change, Oglethorpe Electric Membership Corporation (OEMC), and the Municipal Electric Authority of Georgia (MEAG) will acquire interests in the ownership of the facilities. The Georgia Power Company will retain sole responsibility for overall planning, design, construction, operation, maintenance and disposal of the facilities. In addition, the amendments extend the latest dates for completion of construction of Units 1 and 2.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the construction permit amendments. Notice of supplemental

hearing on proposed amendments to construction permits in connection with this action was published in the FEDERAL REGISTER on September 8, 1975 (40 FR 41568).

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement need not be prepared in connection with issuance of these amendments. A Negative Declaration supporting change of ownership interest and extension of dates for completion of construction was published in the Federal Register on November 26, 1976 (41 F.R. 52111).

For further details with respect to this action, see (1) the application for amendments dated July 15, 1975, as amended on December 15, 1975, and September 16, 1976; (2) Supplemental Initial Decision dated January 11, 1977, (3) Amendment No. 1 to Construction Permit No. CPPR-108, and (4) Amendment No. 1 to Construction Permit No. CPPR-109. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C. and at the Burke County Public Library, 4th Street, Waynesboro, Georgia 30830.

A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Project Management.

Dated at Bethesda, Maryland, this 24th day of January 1977.

DOCKET NO. 50-424

GEORGIA POWER COMPANY

ALVIN W. VOGTLE NUCLEAR PLANT, UNIT 1

AMENDMENT TO CONSTRUCTION PERMIT

Amendment No. 1

Construction Permit No. CPPR-108

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The application for amendment to Construction Permit No. CPPR-108 filed by Georgia Power Company, dated July 11, 1975, for the purpose of extending completion dates for the facility, and the application for amendment to such construction permit filed by Georgia Power Company, Oglethorpe Electric Membership Corporation, Municipal Electric Authority of Georgia and the City of Dalton (hereinafter collectively referred to as "applicants") dated July 15, 1975, as amended on December 15, 1975, and September 16, 1976, for the purpose of adding Oglethorpe Electric Membership Corporation, Municipal Electric Authority of Georgia and the City of Dalton as co-owners of the facility, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations set forth in 10 CFR Chapter I;
  - B. Good cause has been shown for the extension of completion dates as stated in the Atomic Safety and Licensing Board's Supplemental Initial Decision dated January 11, 1977.
  - C. The applicants are financially qualified for joint participation in the ownership of the proposed facility in the ownership percentages stated in the application, provided that in the case of the City of Dalton, satisfactory evidence of bond validation is provided to the Director Nuclear Reactor Regulation in accordance with paragraph 1.E. below;
  - D. The issuance of this amendment will not be inimical to the common defense or to the health and safety of the public;
  - E. The issuance of this amendment has been authorized by the Supplemental Initial Decision (Construction Permit Proceeding) of the Atomic Safety and Licensing Board, dated January 11, 1977, subject to the condition that prior to the issuance of an amendment adding co-owners, the Director of Nuclear Reactor Regulation is provided with the following documents:

- (1) A copy of the Commitment Notice on a loan guaranteed by the Rural Electrification Administration;
  - (2) Evidence of bond validation from both Municipal Electric Authority of Georgia and the City of Dalton; and
  - (3) Documentation of approval by the Securities and Exchange Commission to Georgia Power Company of the sale of its ownership interests in the facility;
- F. All of the documents referred to in paragraph 1.E. above have been received by and are satisfactory to the Director of Nuclear Reactor Regulation, except evidence of bond validation from the City of Dalton.
- G. The issuance of this amendment is in accordance with 10 CFR Part 51.
2. Accordingly, pursuant to the Supplemental Initial Decision dated January 11, 1977, Construction Permit No. CPPR-108 is amended to reflect a change in the ownership and construction completion dates as follows:
- A. Paragraph 1.B is amended by deleting the parenthetical phrase "(the applicant)".
  - B. Paragraphs 1.D and 1.F are amended by deleting all references to "the applicant" and substituting "Georgia Power Company."
  - C. Paragraph 1.G is deleted and the following paragraph substituted:

"1.G. Georgia Power Company, Oglethorpe Electric Membership Corporation, Municipal Electric Authority of Georgia and the City of Dalton (collectively hereinafter referred to as "applicants") are financially qualified to design and construct their respective shares of the facility, provided that in the case of the City of Dalton, satisfactory evidence of bond validation is provided to the Director of Nuclear Reactor Regulation."
  - D. Paragraph 2 is deleted and the following paragraph substituted:

"2. Pursuant to Section 103 of the Atomic Energy Act of 1954, as amended (the Act), and Title 10, Chapter I, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities", and pursuant to the Initial Decisions of the Atomic Safety and Licensing Board dated May 24, 1974, June 27, 1974, and January 11, 1977, the Nuclear Regulatory Commission (the Commission) hereby issues a construction permit to the Georgia Power Company, the Oglethorpe Electric Membership Corporation, the Municipal Electric Authority of Georgia, and the City of Dalton, Georgia (the applicants), as their interests appear in the application to add co-owners, as amended, for a utilization facility designed to operate at 3411 megawatts thermal as described in the application and amendments thereto (the application) filed in this matter by Georgia Power Company and as more fully described in the evidence received at the public hearing upon that application, provided that the City of Dalton shall not become a co-owner of the facility until evidence of bond validation has been received from the City of Dalton and the Director of Nuclear Reactor Regulation has advised applicants that such evidence is satisfactory. The facility, known as the Alvin W. Vogtle Nuclear Plant, Unit 1, will be located at the site as described in the application, in Burke County, Georgia."

E. Paragraph 3.A is amended to reflect a change in estimated construction completion date as follows:

"3.A. The earliest date for the completion of the facility is October 1981, and the latest date for completion is April 1983."

F. Paragraph 3.C is amended by deleting "applicant" and substituting "applicants".

G. Paragraph 3.E is amended by deleting all references to "applicant" and substituting "Georgia Power Company".

- d. Paragraph 4 is amended by deleting the phrase "the applicant submits" in both places where the phrase occurs and substituting "the applicants submit".
3. The rights of creditors shall be in accordance with the provisions of 10 CFR Part 50 § 50.81.
4. This amendment is effective as of the date of its issuance.

AMENDMENT TO CONSTRUCTION PERMIT

Amendment No. 1

Construction Permit No. CPPR-109

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The application for amendment to Construction Permit No. CPPR-109 filed by Georgia Power Company, dated July 11, 1975, for the purpose of extending completion dates for the facility, and the application for amendment to such construction permit filed by Georgia Power Company, Oglethorpe Electric Membership Corporation, Municipal Electric Authority of Georgia and the City of Dalton (hereinafter collectively referred to as "applicants") dated July 15, 1975, as amended on December 15, 1975, and September 16, 1976, for the purpose of adding Oglethorpe Electric Membership Corporation, Municipal Electric Authority of Georgia and the City of Dalton as co-owners of the facility, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations set forth in 10 CFR Chapter I;
  - B. Good cause has been shown for the extension of completion dates as stated in the Atomic Safety and Licensing Board's Supplemental Initial Decision dated January 11, 1977.
  - C. The applicants are financially qualified for joint participation in the ownership of the proposed facility in the ownership percentages stated in the application, provided that in the case of the City of Dalton, satisfactory evidence of bond validation is provided to the Director Nuclear Reactor Regulation in accordance with paragraph 1.E. below;
  - D. The issuance of this amendment will not be inimical to the common defense or to the health and safety of the public;
  - E. The issuance of this amendment has been authorized by the Supplemental Initial Decision (Construction Permit Proceeding) of the Atomic Safety and Licensing Board, dated January 11, 1977, subject to the condition that prior to the issuance of an amendment adding co-owners, the Director of Nuclear Reactor Regulation is provided with the following documents:

- (1) A copy of the Commitment Notice on a loan guaranteed by the Rural Electrification Administration;
  - (2) Evidence of bond validation from both Municipal Electric Authority of Georgia and the City of Dalton; and
  - (3) Documentation of approval by the Securities and Exchange Commission to Georgia Power Company of the sale of its ownership interests in the facility;
- F. All of the documents referred to in paragraph 1.E. above have been received by and are satisfactory to the Director of Nuclear Reactor Regulation, except evidence of bond validation from the City of Dalton.
- G. The issuance of this amendment is in accordance with 10 CFR Part 51.
2. Accordingly, pursuant to the Supplemental Initial Decision dated January 11, 1977, Construction Permit No. CPPR-109 is amended to reflect a change in the ownership and construction completion dates as follows:
- A. Paragraph 1.B is amended by deleting the parenthetical phrase "(the applicant)".
  - B. Paragraphs 1.D and 1.F are amended by deleting all references to "the applicant" and substituting "Georgia Power Company."
  - C. Paragraph 1.G is deleted and the following paragraph substituted:

"1.G. Georgia Power Company, Oglethorpe Electric Membership Corporation, Municipal Electric Authority of Georgia and the City of Dalton (collectively hereinafter referred to as "applicants") are financially qualified to design and construct their respective shares of the facility, provided that in the case of the City of Dalton, satisfactory evidence of bond validation is provided to the Director of Nuclear Reactor Regulation."
  - D. Paragraph 2 is deleted and the following paragraph substituted:

- "2. Pursuant to Section 103 of the Atomic Energy Act of 1954, as amended (the Act), and Title 10, Chapter I, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities", and pursuant to the Initial Decisions of the Atomic Safety and Licensing Board dated May 24, 1974, June 27, 1974, and January 11, 1977, the Nuclear Regulatory Commission (the Commission) hereby issues a construction permit to the Georgia Power Company, the Oglethorpe Electric Membership Corporation, the Municipal Electric Authority of Georgia, and the City of Dalton, Georgia (the applicants), as their interests appear in the application to add co-owners, as amended, for a utilization facility designed to operate at 3411 megawatts thermal as described in the application and amendments thereto (the application) filed in this matter by Georgia Power Company and as more fully described in the evidence received at the public hearing upon that application, provided that the City of Dalton shall not become a co-owner of the facility until evidence of bond validation has been received from the City of Dalton and the Director of Nuclear Reactor Regulation has advised applicants that such evidence is satisfactory. The facility, known as the Alvin W. Vogtle Nuclear Plant, Unit 2, will be located at the site as described in the application, in Burke County, Georgia."
- E. Paragraph 3.A is amended to reflect a change in estimated construction completion date as follows:
- "3.A. The earliest date for the completion of the facility is October 1982, and the latest date for completion is April 1984."
- F. Paragraph 3.C is amended by deleting "applicant" and substituting "applicants".
- G. Paragraph 3.E is amended by deleting all references to "applicant" and substituting "Georgia Power Company".

- H. Paragraph 4 is amended by deleting the phrase "the applicant submits" in both places where the phrase occurs and substituting "the applicants submit".
3. The rights of creditors shall be in accordance with the provisions of 10 CFR Part 50 § 50.81.
4. This amendment is effective as of the date of its issuance.
