**SUBJECT: OYSTER CREEK GENERATING STATION (OYSTER CREEK)  
FACILITY OPERATING LICENSE NO. DPR-16  
DOCKET NO. 50-219  
ADDITIONAL INFORMATION - 10 CFR 20.2002 REQUEST FOR  
APPROVAL OF DISPOSAL OF DREDGED MATERIAL**

Dear Sir or Madam:

NRC letter dated May 29, 2001, provided a request for additional information (RAI) regarding the December 29, 2000, Oyster Creek 10 CFR 20.2002 application for approval of disposal of previously dredged material in the existing dewatering basin located on the Finninger Farm property owned by AmerGen Energy Company, LLC (AmerGen). The NRC letter requested a response to the RAI by June 29, 2001. The request for additional information was discussed and clarified with NRC staff in a conference call held on July 17, 2001. Based on the extent of additional information requested, AmerGen plans to submit the response to the May 29, 2001, RAI by September 15, 2001.

If any additional information is needed, please contact David J. Distel at (610) 765-5517.

Very truly yours,

Michael P. Gallagher  
Director - Licensing  
Mid-Atlantic Regional Operating Group
